

AYAN ENERGY GROUP

ENERGY WITH INNOVATION, EXCELLENCE & RELIABILITY

AYAN ENERGY

AYAN ENERGY is an independent Liquefied Petroleum Gas (LPG) Group & operating its offices in Europe, Asia & Middle East.

AYAN ENERGY PAKISTAN is an independent LPG marketing company, having its first storage and bottling plant over 50 Acre, Strategically located in the North-East of Pakistan at FIEDMIC Faisalabad.

We have cumulative storage capacity over 2,000 metric tons with bottling capacity of 153 MT per day enabled with state-of-the-art technology, which carries out the bottling of LPG at the safest level.

Cylinders

We offer wide range of LPG cylinders, designed according to OGRA, HDIP and international standards.

Available cylinder sizes:

- 6.0 Kg domestic cylinder
- 11.8 Kg domestic cylinder
- 45.4 Kg commercial cylinder
- 100 kg commercial cylinder

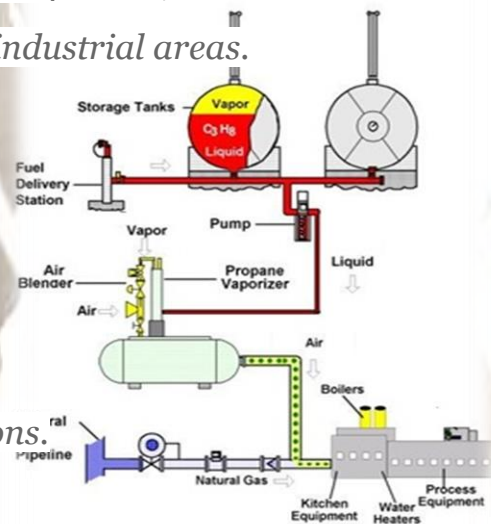

Our LPG cylinders are represented across the country, either by selected agents and distributors, or by regional sales representatives.

SNG System

We provide Synthetic Natural Gas (SNG 60% LPG & 40% air) solution for residential societies, commercial and industrial areas.

Advantages of SNG Solution:

- Our SNG system delivers gas at your door step through pipeline
- Uninterrupted supply even in peak seasons.
- Can be supplied to remote / far flung locations.
- Price, quality & delivery assurance.
- Monthly billing system.
